Flexible at cold temperatures, Class 6 single conductor for devices or measurements  
 Very soft PVC insulation that is flexible at low temperatures

### Info

Extremely flexible / Super-finiest stranded

### Application range

For use in and on mobile equipment

The 1000 V version with thick insulation wall is ideal for many measuring instruments such as multimeters.

For measuring assemblies in technical training sessions, education and electric laboratories

### Product Make-up

Stranded copper wire

Core insulation: Based on PVC

### Norm references / Approvals

Based on VDE 0682/ 0683 and DIN 46438/ 46440

### Remark

Unless specified otherwise, the shown product values are nominal values. Detailed values (e.g. tolerances) are available upon request. Copper price basis: EUR 150/100 kg. Refer to catalogue appendix T17 for the definition and calculation of copper-related surcharges. Photographs are not to scale and do not represent detailed images of the respective products.

### Technical Data
